

Jennifer Johnson

Jennifer joined the EMF-ECBC in 2002, where she is currently Head of Legal & Economic Affairs, overseeing, in particular, the work of the EMF's Legal and Economic Affairs Committees, Valuation Committee and Research & Data Committee. She specialises in a range of mortgage-specific issues on both the retail and prudential sides of the business and therefore handles a variety of files from those with a consumer protection focus right through to liquidity, leverage and capital requirements, as well as a variety of horizontal EU business regulatory files, such as financial benchmarks and data protection. She also closely follows the EMF-ECBC's covered bond-related activities and files. Most recently, Jennifer has been heavily involved in the design and management of the EMF-ECBC's Energy Efficient Mortgage Initiative. Prior to joining the EMF, she studied French, German and European Politics at the University of Wales, Cardiff.
